Space Money Bud Bomb

Space Money Bomb

This is the Dry Season Bomb. There will be another in three weeks and others as luck prevails.

This is a first come first served open donation for patients only. If you have plants you do not qualify. Directions on how to participate are below.

Read the entire thing before responding.

1. Before responding make sure you can **pick up between 12pm Tuesday and 4pm Thursday** at Big Blue.
2. This thread is the only place you will find information about this donation. Come here for updates and questions. Do not call Big Blue for more information. All the information is here.
3. If you accept this donation and have an outstanding med request, OGF asks you please take it down. **This donation counts toward your two per month suggested use of OGF for obtaining meds.**
4. To get on the list for this open donation type or paste these words, "Space **Money**" somewhere in a reply below.
5. I will thank you to indicate you made the list and post the list as it fills.
6. Names are taken only from this thread and not by PM. One donation per name. For verification purposes, a screen name is required.
7. **This donation is for patients only. No one with plants is allowed.**
8. Any unclaimed donations go to the volunteers at 4pm Thursday.

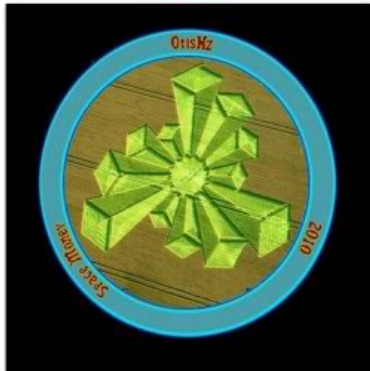

In April I lost nearly all my plants. Only AK and Beloved survived. I asked OGF for more plants here:

<http://www.oregongreenfree.net/forum...ght=clone+love>

Thanks to the people who gave me plants so I could continue doing bombs.

These donations come in Otis size jars which are 1.9" by 2" blue glass and good for traveling. They are stuffed with enough buds to get you through the weekend in comfort and style.

The art is stolen from aliens. The caps signify the strain. They are Blackbery Kush, Alaskan, Super Silver Haze, and Monga Wonga* vertically as in the image below:

*Monga Wonga is really [Chimera's Calizahr](#).

The art on the stickers is from crop circles. Some say crappy crop circles are not by aliens because aliens would make them perfectly. That is no fun. Spaceships doing donuts is hilarious **space** vandalism. Crooked crop circles are probably made by wasted aliens. Or not. I like to figure out how to make them with rope.

Royalty free circular designs **from space** worked out well for bomb stickers. I doubt any aliens are coming to claim their art or that I will be getting sued by aliens for copyright infringement.. They don't have legal standing anyway since only people can sue. To us they are other animals so it would be like getting sued by a dolphin.

Crop circles are usually circular or framed by a circle.

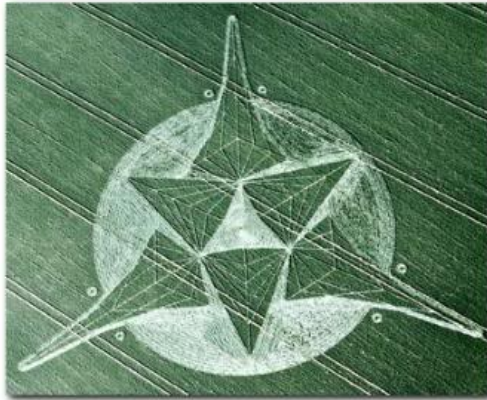

Several resemble Celtic knots.

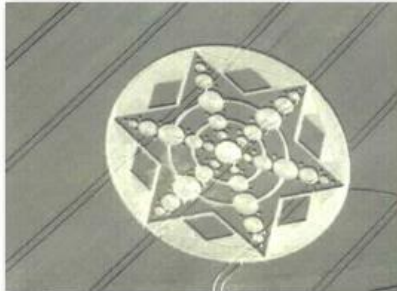

There are even resonance patterns similar to radio interference.

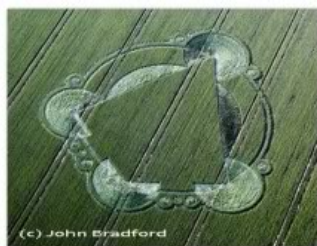

Many intimate a hidden polygonal geometry.

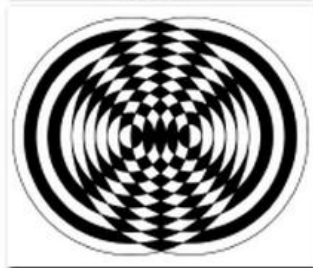

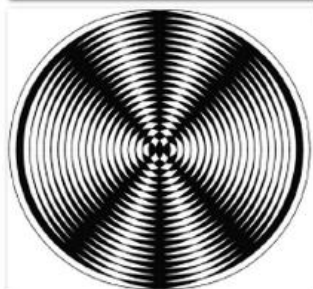

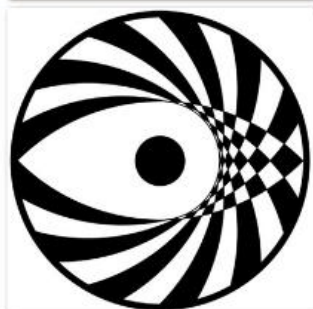

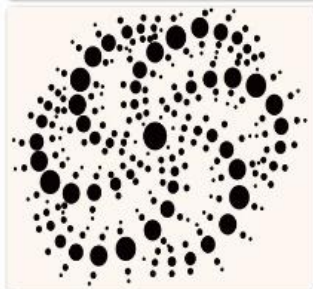

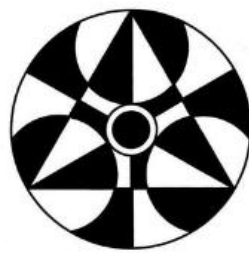

Others...

Diagrams

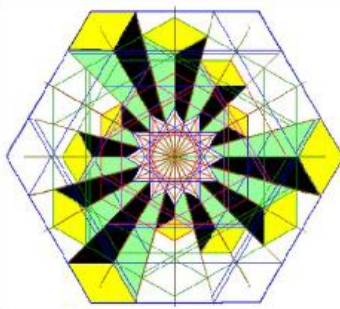

HARLEQUIN CIRCLE

Appearing June 15, the first formation in cosmic history! (It is now in isolation in books) There is no such thing as a Harlequin Circle (H.C.) (H.C. 1913-1914). The 150-foot circle contains a triangle bisected three ways, and cutting through three circles in the center to create the central design. Although someone had been there before us, the staff of service had no blueprint or sample marks on their — to it, neither was there a single magical hand.

Thank you for your generosity once again Otis. I will save saying the magic words this time as there are plenty of people in genuine need out there.

I need no Mace Sponey, but this is a cool thing.
